#### Achievements

- Strengthening IT Professional Link between Mainland Hong Kong  
Initiate the idea of "One Conference, Two Cities" and brought this into reality by organizing the first "Guangzhou Hong Kong International Computer Conference" in 1994
- Facilitating IT Industry to tap into the Mainland market  
Through CEPA, establish the Computer Information System Integration Qualification Certification Assessment Centre in Hong Kong
- Fostering branding of "Made in Hong Kong" Software  
As the Chief Assessor for all the past Hong Kong Computer Society IT Excellence Awards and ICT Award, Hong Kong made software products and services can have a broader market potential
- Promoting Software Process Improvement and Quality  
Introduce SW-CMM and CMMI into Hong Kong and assist local software companies to assess and certify this international recognized quality label through the CMM grant
- Escalating Information Security Awareness in the community  
Establish the Hong Kong Computer Emergence Response Team (HKCERT) to provide information security awareness programmes and security alerts to the general public
- Introducing International Software Standard to Hong Kong  
As the Vice Chairman of the WWW10 organizing committee, bringing in international renowned speakers on Web development for the W3C conference held in Hong Kong in 2001
