Daniel Lai is a seasoned professional in the information technology (IT) sector with over 35 years experience in the IT sector. He has successfully led many innovative and advanced IT projects and has an excellent track record in managing various IT functions, creating values with IT.

Over the years, Daniel has made significant contributions to the community, IT profession and IT sector in Hong Kong and the region. He devoted his spare time in promoting IT in the community, advancing professionalism, advising government and public institutions on IT, fostering IT industry, and developing relationship between local IT institutions with mainland and the region. He has held and is holding many positions in public services, professional bodies and educational institutions on a voluntary basis.

Daniel strongly believes that development of IT professionalism, IT industry, and the broader application of IT in all sectors and the community will lead to economical advancement, prosperity and a more digitally inclusive society.
